

Miraculous healing at Hope Family Centre Mossel Bay

The God we serve is still in the business of healing his people. This is a testimony of one of the church members from our branch in Mossel Bay, attesting to the supernatural healing power of God. When she visited the church, she could not walk and was on crutches. After being prayed for, she received her healing instantly. You too, will also testify. Keep on trusting God and you will receive your miracle!
